

WILDANU UBAIDILLAH

087770178769 | willdantuan@gmail.com | <https://www.linkedin.com/in/wildanu15/> | Mojokerto, East Java

SUMMARY

Fresh graduate in Agribusiness Management with a GPA of 3.96/4.00 and strong analytical capabilities in **sales analysis, demand forecasting, business analysis, inventory planning, and data-driven decision making**. Experienced in managing operational data and inventory planning as a Warehouse Administrator, with experience applying MRP and EOQ to improve stock planning and reduce inventory budget by 20%. Conducted demand forecasting research using Artificial Neural Networks and developed business strategies through SWOT analysis and national-level business plan competitions. Proficient in **Microsoft Excel, data analysis, SPSS, Minitab, POM-QM, and Microsoft Office**, with strong analytical thinking, communication, problem-solving, and teamwork skills. Seeking opportunities as a **Sales Analyst, Sales Data Analyst, Business Analyst, or Commercial Analyst**.

EDUCATION

JEMBER STATE POLYTECHNIC 2025
Bachelor of Agribusiness Management (GPA: 3.96/4.00) *Accreditation: Excellent (BAN-PT)*
Final Project “Control of Instant Ground Pepper Raw Material Inventory Based on Demand Forecasting Using Artificial Neural Networks (Case Study at PT XYZ, Mojokerto)”

INTERNSHIP EXPERIENCES

PT PG Rajawali Nusantara I – Malang, East Java DEC 2023 - JAN 2024
Sugar Processing

- Analyzed granulated sugar production flow (extraction–crystallization).
- Monitored and recorded anomalies for preventive analysis, reporting to senior engineers.
- Applied SOPs and occupational safety standards in a sugar processing.
- Performed sugar quality testing (ICUMSA, moisture, and grain size)

ORGANIZATION EXPERIENCES

PNBP RESEARCH JUN-AUG 2023
Research Assistant

- Conducted field sampling and measured key water quality parameters (pH, temperature, DO, salinity, phosphate) across designated pond locations.
- Executed spatial analysis using IDW interpolation and overlay techniques to generate suitability maps.
- Assisted in evaluating land suitability by applying scoring methods to classify pond areas into S1–N suitability classes.

PNBP COMMUNNITY SERVICE JUN-AUG 2023
Public Relations Division

- Assisted in the implementation of a community service project focused on converting organic household waste into compost using the Takakura method.
- Facilitated hands-on composting workshops, including preparation, layering of organic materials, and application of effective microorganisms (EM4).
- Contributed to environmental awareness enhancement and skill development of community members, particularly women’s groups (PKK).

RESEARCH CLUB 2021 – 2022
Coordinator Research Club

- Guide and mentor student teams in developing innovative and solution-oriented research ideas for scientific writing competitions.

- Plan, coordinate, and implement research activities and community service projects to enhance student engagement and societal impact.
- Lead the research and development division in fostering a culture of research and critical thinking among students.

RESEARCH

RESEARCH PUBLICATION

2021 - 2024

- Sorting tomatoes (*Solanum lycopersicum* L) using image processing.
- Gespatial based mapping of the distribution of poultry livestock in Sidoarjo Regency
- Innovation Development Strategy of Boba Davocas Instant Drink’s: A SWOT Analysis.
- Mapping the Suitability of Milkfish Ponds in Sidoarjo District Using Geographic Information Systems (GIS)
- Forecasting the demand for instant ground pepper by PT XYZ using the backpropagation artificial neural network technique

FINAL PROJECT PROCESSING LAB

- Feecha: natural antiseptic functional paper soap with substitutes of papaya leaf extract (*Cnidioscolus Aconitifolius*) and coffee grounds.
- Davocas: nutritious instant boba innovation with tannin extraction from avocado seeds as an effort to boost immunity during the covid-19 pandemic
- Biofernic: innovation in organic fertilizer fortified with banana peel and eggshells, with molasses bioactivator substitution to support sustainable agriculture.
- Yoriton: fortified yogurt extracted from milk, jackfruit seeds, and banana peels for the prevalence of stunting and lactose intolerance.

ACHIEVEMENT

2021 - 2024

- Finalist National Essay Competition Malang University (2021)
- Third Place National Business Plan Competition Brawijaya University (2022)
- Third Place Agrifair Business Plan Competition Jember State Polhytechnic (2022)
- First Place Youth Economic Competition Padang University (2023)
- Finalist Outstanding Student Award Jember State Polhytechnic (2025)

TRAINING CERTIFICATES

- Data Analysis and Sostware Enginering MSIB Certificate (2023) Issued by: PT RevoU Tech Academy
- Asean Data Science Online Training Certificate (2024) Issued by: SAP Southeast Asia
- Sustainable Startup Related Climate Change MSIB Certificate (2024) Issued by: PT Amati Karya Indonesia
- Internship Confirmation Letter – PT PG Rajawali Nusantara (2024) Issued by: PT PG Rajawali Nusantara
- BNSP Agroindustry Management – LSP Jember State Polhytechnic (2025) Issued by: LSP Jember State Polhytechnic

SKILL

HARD SKILL

- Microsoft (Microsft Word, Power Point, Excel)
- Google Workspace (Gsheet, Gdocs, Gslides)
- Minitab
- SPSS
- Expert Choice
- POM QM
- Arc GIS
- Web Development (HTML/CSS)
- MATLAB

SOFT SKILL

- Leaderships
- Public Speaking
- Analytical Thinking
- Teamwork & Collaboration
- Fast Learner
- Problem Solving
- Time Management

LANGUAGE SKILL

- Indonesia (Native)
- English (Intermediate)
